### Mission Statement

The Governor's Grants Program values Kansans living in healthy communities, where they can grow, learn, feel safe, and thrive economically. The Program strives to remove obstacles in Kansas communities, neighborhoods, schools, businesses, and homes to ensure the safety and security of all Kansans. By administering federal and state grants to units of state and local government, Native American tribes, and nonprofit, community and faith-based organizations throughout the state, the program aims to enhance the criminal justice system, improve public safety, and support crime victim services and drug and violence prevention programs throughout Kansas.

**Values Statement** - The program is dedicated to ensuring a **S.A.F.E.** Kansas where:

- S**ervices are available and accessible in every community;
- A**ccountability for systems, agencies, and services is addressed;
- F**unding is provided for adequate resources; and
- E**mpowerment of individuals is encouraged.

In addition, the Governor's Grants Program staffed the following boards and councils during State Fiscal Year (SFY) 2015:

- Kansas Criminal Justice Coordinating Council
- Governor's Domestic Violence Fatality Review Board
- Governor's Advisory Council on Domestic Violence Training
- State Victim Assistance Academy Steering Committee

## **Kansas Criminal Justice Coordinating Council**

The Kansas Criminal Justice Coordinating Council (KCJCC) was created in 1994 by the Kansas Legislature (K.S.A. 74-9501 et seq.) to define and analyze issues and processes in the criminal justice system, identify alternative solutions, and make recommendations for improvement. The KCJCC also directs the development and management of the Kansas Criminal Justice Information System (KCJIS).

The Council provides the oversight of the criminal justice funding available to the state from the U.S. Department of Justice, Office of Justice Programs Bureau of Justice Assistance. The KCJCC is charged with developing a Kansas strategy, prioritizing purpose areas for funding, and determining grant awards. With the Council members' expertise and knowledge, the KCJCC has developed strategies and approaches to prevent, as well as control, violent and drug-related crimes.

KCJCC members are statutorily appointed and consist of the Governor or designee, the Chief Justice of the Supreme Court or designee, the Attorney General or designee, the Secretary of Corrections, the Superintendent of the Highway Patrol, the Commissioner of the Juvenile Justice Authority, and the Director of the Kansas Bureau of Investigation. More information on the KCJCC can be found online at <http://grants.ks.gov/boards-councils-and-initiatives>.

## **Governor's Domestic Violence Fatality Review Board**

In October 2004, former Governor Kathleen Sebelius signed Executive Order 04-11 establishing the 14-member Governor's Domestic Violence Fatality Review Board (FRB). The FRB is charged with reviewing all adult domestic violence-related fatalities in Kansas, describing trends and patterns regarding the facts and circumstances of these fatalities, recommending improvements to prevent future fatalities, and determining if adequate resources and training are in place for those who respond to domestic violence crimes.

Mark Malick, Kansas Bureau of Investigation, chairs the FRB. Current FRB members include Dave Warry, Kansas Law Enforcement Training Center; Steven Halley, Family Peace Initiative; Joyce Grover, Kansas Coalition Against Sexual & Domestic Violence; Michael Radke, Garden City Police Department; Curt Brungardt, Jana's Campaign; Paula Taylor, Newman Regional Health; Audrey Cress, Kansas Department of Corrections; and Rev. David Meier, St. Peter's Lutheran Church. Justin Shaw, Kansas City Anti-Violence Project, serves as an advisory member. Debi Holcomb serves as staff for the FRB. More information about the FRB's findings and recommendations can be found online at <http://grants.ks.gov/boards-councils-and-initiatives>.

## **Federal Grants to Encourage Arrest and Enforcement of Protection Orders Program (GTEAP)**

The Governor's Office partnered with the Kansas Coalition Against Sexual and Domestic Violence, Kansas Law Enforcement Training Center, the Kansas Attorney General's Office, the Kansas Office of Judicial Administration, the Kansas Department of Corrections, and many local agencies to form the Governor's Advisory Council on Domestic Violence Training. The Council is tasked with creating comprehensive advanced training curricula for professionals in the criminal justice system who respond to domestic violence and sexual assault. The purpose of the training project is to infuse Kansas with a consistent, coordinated response to domestic and sexual violence from the time of a 911 call reporting an incident, through the investigation, arrest, prosecution, probation or parole and release of offenders. This training effort is funded through a Federal Grant to Encourage Arrest Policies and Enforcement of Protection Orders Program (GTEAP) by the U.S. Department of Justice, Office on Violence Against Women. In SFY 2015, trainers selected by the Council saturated the state with trainings utilizing the domestic violence curricula for each of the following professions: communication specialists, law enforcement, community-based advocates, system-based advocates. The Council developed and conducted sexual assault training needs assessments for community-based advocates and communication specialists and also developed sexual assault training curricula for law enforcement and system-based advocates. A Batterer's Intervention Program Summit was also hosted by the Kansas Department of Corrections.

## **Federal State Victim Assistance Academy (SVAA)**

In 2011, a State Victim Assistance Academy (SVAA) Committee was formed to update the Governor's B.A.S.I.K. (Building Advocacy Skills, Information, and Knowledge) Training materials and training techniques. B.A.S.I.K. began in 2002 as a skills-based training with the goal of providing victim service providers with a basic understanding of victim issues and resources available in the state. The SVAA Committee includes state and local stakeholders, as well as a partnership with Washburn University. The committee applied for federal funding to assist with the curriculum enhancements and to assist with providing multiple training events to eliminate a full waiting list.

In 2012, the Governor's Grants Program received the SVAA grant from the U.S. Department of Justice, Office for Victims of Crime (OVC). In SFY 2015, the committee refined the blended learning curriculum with an emphasis on skill practice and trauma-informed care. The curriculum was pre-approved for the National Advocate Credentialing Program through the National Organization for Victim Assistance. Two academies were held in SFY 2015, one in Topeka and one in Wichita.

### Inspiration from the Community

“The CAC staff worked with Central Kansas DARE Officers to develop a partnership to present education to parents about keeping their children safe. Through this partnership, parents will learn to recognize signs of abuse or attempts to groom their children by unhealthy adults. While helping children understand body safety is important, teaching parents and caregivers how to keep their children safe takes the responsibility off of the child and gives it back to adults.”

## FEDERAL FAMILY VIOLENCE PREVENTION AND SERVICES ACT (FVPSA)

**JULY 1, 2014—JUNE 30, 2015**

The Federal Family Violence Prevention and Services Act Grant Program (FVPSA) provided \$1,126,236 in grant awards to 20 domestic violence programs in Kansas. The U.S. Department of Health and Human Services, Administration for Children and Families provides funding for this grant.

FVPSA funds pay for services for victims of family violence, domestic violence, or dating violence, and their dependents. These services include support group activities for women and children, child care, prevention education in schools and communities, information and referral services, advocacy in obtaining protection from abuse and stalking orders, court accompaniment, outreach into rural counties, etc. One of these priorities is ensuring services are provided 24-hours-a-day, seven-days-a-week and free to domestic violence victims and their children. Many programs provide outreach services in the rural counties. Services range from safe homes, support groups, crisis intervention, court accompaniment, and transportation.

Kansas domestic violence programs make every effort to reach those who are underserved. Many of the programs have volunteers and staff of different ethnic, racial, cultural, and language diversities in order to meet the needs of victims and their children. Shelter facilities are accessible to those who have physical disabilities or an alternative safe shelter is provided. Staff and volunteers in the rural isolated areas provide transportation. Many programs also provide access to toll-free numbers for victims. In addition, Kansas has a toll-free number to assist local programs with AT&T interpreter services, 888-END-ABUSE.

### Inspiration from the Community

“During this grant year, Safe Homes worked with a client who, after a domestic violence incident where police were involved, fled abuse with her child and came into the emergency shelter. Working with a Safe Homes advocate, she found new employment within two weeks and secured a temporary job. She continued working with her advocate on a PFA, attended support group meetings. During her divorce, she also attended parenting classes with Safe Homes. Within six months of starting her new job, she was promoted to the office manager position. Since then, she has also enrolled in college. She said about her time working with Safe Homes: “They welcomed me in with open arms, and helped me to gain the confidence I now have. The program has helped me to become independent and to care for my son more!” Her advocate said she has seen a lot of growth from this client who now has less anxiety, less stress and who is now turning into a great friend and resource for other clients who meet her in support group. “She’s really good at listening, she has a lot of empathy, and she just understands what these other women are going through. She was a victim of emotional and physical domestic violence for several years, with lots of highs and lows. So now, she gives great advice and encouragement to other women who are going through the same things. It’s been a remarkable turnaround.”

**FEDERAL EDWARD J. BYRNE MEMORIAL JUSTICE ASSISTANCE  
GRANT  
PRISON RAPE ELIMINATION ACT REALLOCATION (JAG PREA)  
DECEMBER 1, 2014-SEPTEMBER 30, 2015**

The Prison Rape Elimination Act (PREA) provides that a state or territory whose governor does not certify full compliance with the standards is subject to the loss of five percent of any DOJ grant funds that it would otherwise receive for prison purposes, unless the governor submits an assurance that such five percent will be used only for the purpose of enabling the state to achieve and certify full compliance with the standards in future years.

The Edward Byrne Memorial Justice Assistance Grant (JAG) Program is one of the Department of Justice grant programs subject to this requirement. The goals of the FY 2015 PREA Reallocation JAG Program are to continue implementation of the national standards to prevent, detect, and respond to prison rape in order to protect individuals from sexual abuse and sexual harassment in confinement. FY15 PREA Reallocation funds support the Kansas Department of Corrections. Funds provide technical assistance to seven county jails in assessing preparedness and implementation of PREA standards, as well as conduct certified PREA audits.

During the 2015 grant period, no new NCHIP projects were funded. ### Inspiration from the Community

“Funding from the SASP program allowed us to offer the services of a licensed therapist to victims/survivors of sexual assault and abuse. Victims of sexual assault and abuse experience a level of trauma that is often difficult to overcome without the assistance of a trained therapist. Being able to provide a therapist experienced in working with post-traumatic stress disorder and other anxiety disorders was a great benefit to our clients. As noted above, the demand for these services far exceeded the funding available through the SASP grant, but we were able to add funding from our VOCA grant to continue/expand services.”

### Inspiration from the Community

“Mom has a history of depression, anxiety and substance abuse, primarily marijuana. Prior to becoming a client at the Center, she was reported to have been observed smoking marijuana in her home by her daughters. The children also reported that Mom was not fixing meals and her home was observed to be quite cluttered, with dirty clothes and dishes throughout and trash stacked in the corner in the kitchen and bathroom. The children also reported that Mom was yelling at them for no reason and was just mad and mean all of the time. The father of both children was granted temporary custody of the children after filing an ex parte order to change residence. Client was ordered to Supervised Parenting Time. At the time of her intake, client was angry, upset and refusing to see what the problem was. The children’s father simply wanted to feel that his children were safe when visiting their mother. For the first 5-6 visits, client was not reliable in attending but got progressively better as time passed. After several serious conversations with her about her need to address her substance abuse, client began attending AA/NA meetings at least 1 time weekly and continues to do this every week. She is also seeing a therapist regularly and is taking medications as prescribed on a daily basis. Client has cleaned up her house and brings regular meals to her visits each week. She reported that she also has a job and really enjoys it. The children are now asking when they can go to Mom’s house and she is allowed to attend school activities and other functions based on the results of her drug tests. The next court date is approaching and the GAL is recommending that client be allowed to return to a more traditional parenting time schedule with unsupervised time at her home with the children every other weekend, every Wednesday for 2 hours, alternating holidays, etc. The children’s father reports that they are able to talk about the needs of the children and to parent cooperatively and that he is looking forward to being able to let his children resume a less restrictive relationship with their mother.”

## STATE GENERAL FUND (SGF) JULY 1, 2014—JUNE 30, 2015

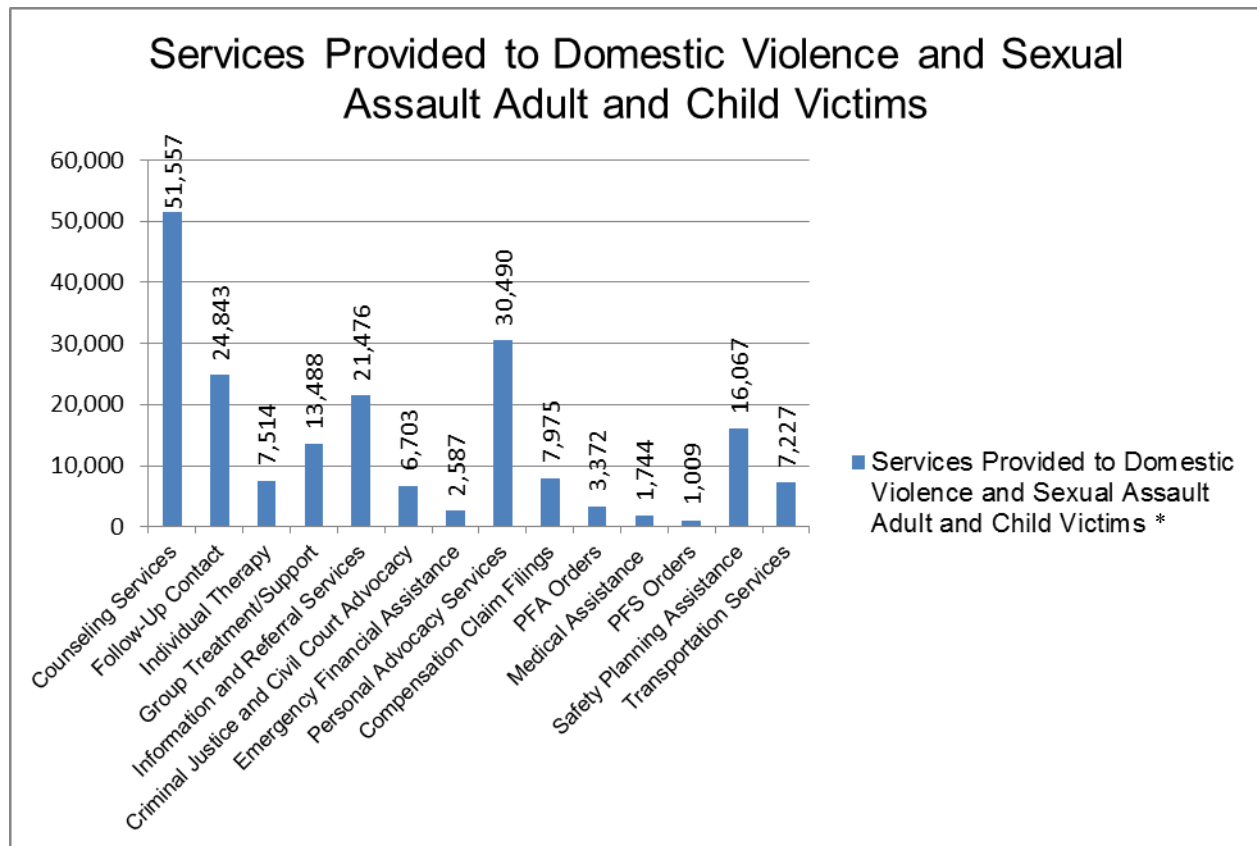

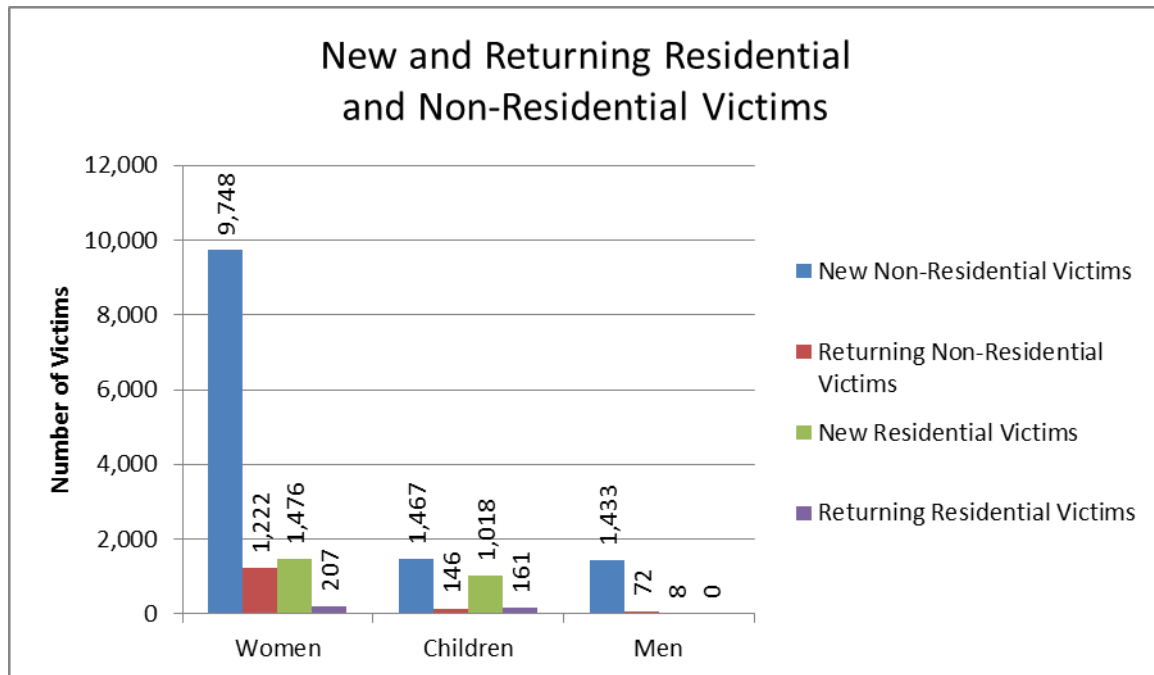

The State General Fund (SGF) provides funds to support services for domestic violence prevention grants. These funds are used as matching funds for federal formula grant requirements to support sexual and domestic violence services and to enhance services to underserved areas of the state.

Twenty-five grant projects were awarded \$4,177,152 to assist in ensuring that funds are available for community-based sexual and domestic violence services. Crime victims and their children are best served when they can maintain jobs, stay in schools, keep family connections and other community ties while receiving safe services. Therefore, sexual and domestic violence services such as safety planning, shelter, advocacy, counseling, etc. should be available within, or close to, every community in Kansas.

<b>Total Funds Expended</b>	<b>\$3,982,063</b>

With the assistance of SGF funding, programs provided the following statewide data for domestic violence and sexual assault services:

- 3,054 victims received shelter for 95,030 bed nights
- 32,665 domestic violence and sexual assault victim-related calls responded to
- Programs report that they could not meet the immediate need for 4,835 adult victims requesting shelter due to being at capacity at the time of need

\* The numbers illustrate the number of services provided, not the number of victims served.

### Inspiration from the Community

“Marvin” called the crisis line and spoke with an SGF funded staff person. He had a number of concerns, but in particular needed immediate assistance with his personal safety. The acquaintance Marvin had been living with sexually assaulted him the night before. During his crisis line call with the advocate, Marvin requested safe housing, legal advocacy for a possible Protection From Abuse Order, transportation to the hospital for a sexual assault forensic evidence exam and safety planning. The crisis line advocate was able to help Marvin safety plan and problem solve how to get to the hospital for an exam. Another advocate met Marvin at the hospital to provide advocacy during the exam. Working with the hospital social worker, the advocate was able to assist Marvin with safe housing for the night. While at the hospital Marvin was assigned an SGF funded advocate who checked in with him the next day. The advocate accompanied Marvin to an interview with law enforcement and assisted him in filling out paperwork for a Protection From Abuse Order. In just a few days Marvin received services critical to his safety from three different MOCSA advocates on the 24-hour crisis line, at the hospital and while interacting with the criminal justice system. Kansas SGF funds are essential to providing these core services to survivors of sexual violence like Marvin.”

“On December 22, 2015 the Council voted to approve the [new] Tribal Codes! The Sac and Fox Nation of Missouri Tribal Codes now contains an entire new section - Title 30 Tribal Domestic Violence Code. This 98 page document was distributed to social services, law enforcement and other applicable parties on January 11, 2016, by Sac and Fox Tribal District Court with a notation that these codes will now be enforced by the Nation. This is a major accomplishment for this project which was made possible through these grant funds and will be crucial in allowing our Tribal Court and law enforcement to charge and prosecute offenders in the tribal court. The provisions within these codes will also provide a greater increase in safety to victims in numerous ways, such as prohibiting the offenders from possessing firearms, providing guidance to the courts in handling custody cases involving domestic violence, mandating training of law enforcement and other providers, etc.”

“The agency received a thank you note from a sexual assault client after she left DVACK’s emergency shelter. The victim’s perpetrator groomed and attempted to persuade her to relocate to DVACK’s service area under false pretenses for over a year prior to her arriving. Once in Kansas and isolated from her family and support system, he forced her into domestic sex labor. She was held hostage, threatened, beaten and continually supervised both physically and electronically. Within a week’s time she was sold to approximately 45 men and forced to have sexual relations. Although threatened with severe harm and death, she fled with nothing but the clothes on her back when her pimp left momentarily and his accomplice was not in the room. As a result of VOCA funds, DVACK was able to provide her safe shelter, crisis intervention, safety planning, information and referral, assistance with food and clothing as well as a phone and bus ticket to return home safely. The thank you note is a testament to the impact our agency has had on this particular victim.”
